SUMMARY

A Computer Science Engineering student passionate about technology and creativity, with experience in Python, C, web development, and UI/UX design. I also enjoy photography, painting, and baking. I am fluent in multiple languages and have worked on projects such as Footstep Power Generation using Arduino. Eager to learn and contribute in the tech world.

EDUCATION

BACHELOR OF COMPUTER SCIENCE ENGINEERING (CSE)
PA College of Engineering
CGPA - 8.9
Year of passing - 2028

SKILLS

- **Technical: Python, C, Java, Web Development, UI/UX Design, SQL, Operating Software**
- **Software: Statistics, Creative Skills, Communication, Teamwork, Problem Solving**
- **Tools: Scratch, Salesforce, PowerPoint**

PROJECTS

Footstep Power Generation Using Arduino
Role: Team Member | Timeline: 2024
A prototype project exploring electrical power generation from footsteps using Arduino.

ComedKares RC Car Using Arduino Workshop
Role: Leader | Timeline: 2024
Workshop project focused on assembling and understanding an Arduino-powered RC car.

Volunteer Program Tracker Using Salesforce
Role: Leader | Timeline: 2026
A Salesforce-based project to organize and track volunteer program activities.

ADDITIONAL PROJECTS
• Muscle Flex Detection & IoT Monitoring System using EMG Sensor
• Cooking Recipe Portal • Automated Irrigation System • Drone Using ESP32

CERTIFICATE

- Salesforce Essentials and CRM Foundations
- NTPEL-Artificial Intelligence for Economics
- ComedKares RC Car
- Cisco Networking Basic

ACHIEVEMENTS & PARTICIPATION

RC Car Workshop - Participated in an RC car workshop, gaining exposure to remote-controlled vehicle technology and basic engineering concepts.

Hands-on Workshop on Game Development Using Python - Participated in a hands-on workshop focused on Python-based game development and programming concepts.
